EXPERIENCE

Full stack Web Developer

Freelance 📅 2022 - Present 📍 Delhi, India

- **Designed and developed** responsive websites and web applications for diverse clients across industries, ensuring a seamless user experience.
- **Collaborated with clients** to gather requirements, deliver prototypes, and implement custom solutions, achieving a 95% satisfaction rate.
- **Integrated APIs** and third-party services, including payment gateways, analytics tools, and authentication systems, to enhance functionality.

Seo Assistant

Sportsabc.co.uk 📅 2021 - 2023 📍 Delhi, India

- **Optimized website content** for search engines by implementing targeted keywords, meta tags, and descriptions, increasing organic traffic by [100]%.
- **Performed keyword research** using tools like Google Keyword Planner and SEMrush to identify high-value terms and drive targeted traffic.
- **Analyzed website performance** using tools like Google Analytics and Search Console to monitor traffic, user behavior, and page rankings.

PROJECTS

Medium Blogging Website

📅 2024 - 2024

🔗 https://medium-blog-project-tau.vercel.app/

Medium-style blogging website project, I developed a full-stack web application using Next.js for the frontend and Node.js with PostgreSQL for the backend. The platform allows users to create, edit, and publish blog posts, featuring user authentication, a rich text editor, and dynamic content rendering with Prisma for database management.

Anonymous Messaging Website

📅 2024 - 2024

🔗 https://anonymous-message-fsngglnss-shahzadmalik07s-projects.vercel.app/

I developed an anonymous messaging website using Next.js, featuring email OTP verification for secure user registration. Each user receives a unique profile link, allowing others to send them anonymous messages. The platform includes a dashboard where users can toggle message acceptance, view message cards, delete messages, and leverage AI-powered suggestions for crafting messages. These features, combined with a seamless interface, offer an engaging and interactive experience for anonymous communication.

Mini Paytm App

🔗 https://github.com/ShahzadMalik07/Mini-Paytm-App

Developed a mini Paytm-like application where users can send and receive money in their accounts. The application features a **Dashboard page** for users to view their available balance and search for other users to send money to. The balance is automatically credited upon signup. The project includes **user authentication** with **Sign Up** and **Sign In** functionality, along with engaging animations on the **Sign In** and **Sign Up** form pages.

LANGUAGES

Hindi

English

SKILLS

HTML   CSS   Javascript   Tailwind

React Js   Next Js   Node Js

MongoDb   PostgresQL   TypeScript

Redux   Git   Github   AWS

Docker   Ci/Cd   Python   Java

EDUCATION

Graduate in Pol. Science & Economics

University of delhi
📅 2017 - 2020

Diploma Computer Applications

NCPUL
📅 2016 - 2017

KEY ACHIEVEMENTS

💎 **Impactful Contributions**
Received positive client feedback for creativity, problem-solving, and technical expertise.

CERTIFICATION

Master React Redux
Bosscoder Academy 2024

SQL Bootcamp
Let's upgrade 2024

Git and Github Bootcamp
Let's Upgrade 2024
